# Moti Charlap

Web developer

## About me

Innovative, task-driven, have a great common sense and a stable logical thinking. I have an ability to work a lot and learn fast – Most of my knowledge is self-taught.

Served full service as a soldier, Combat team commander, and as a Sergeant.

When I don't code I'm working out, been volunteering with disabled people since age 16.

## Projects

### **Workouteer – Social app for fitness enthusiasts**

An app that lets you schedule a workout, (biking, running etc), by choosing type, time and place, join other's workouts or chat with new friends. The app is already hosted on a custom domain and is working on Android . try it out 😊

[Click here for code](#) | [Click here to try](#)

JS, React Native, Firebase (Firestore, Auth etc)

### **Airport traffic control WebApp using Asp.Net**

Web-App that shows on UI which flight is in which station in real-time using API, while directing flights to the next empty station in route. All requests are going through WebAPI.

[Click here for code](#)

C#, Asp.Net Core, WebAPI, SQL DB, Azure

## Former Experience

### **Solar panels technician [2021-2022]**

- Installation of a construction according to an engineer's plan.
- Installation of solar panels.
- Moving electrical cables according to the strings plan.
- Installation and work with converters, grounding boxes, etc.
